ETS Scalable Complex Order condition control

Due to the technical set-up within ETS For SCOs, the following conditions must be acknowledged when submitting as a combination (dependent on preference). For any invalid submissions made, ETS will generate a message outlining the erroneous submission type that should be revised.

Please find the combinations that **can be submitted:**

Fixed Term filled but not 0 / No Increase Grad / No Decrease Grad / MAV filled (please find a visual aid highlighting the message generated as a result of a valid submission)

No errors

Order - 4000000524612 - 60 min

Complex Order Submissions:

Please be aware that the Complex Order Submissions placed in advance (for 25/01, 1st trading date, and beyond) will be deleted from ETS. You shall be required to submit your Scalable Complex Order once the maintenance has completed on the evening of 24/01/2023.

As of 24/01/2023 (18:30 GMT) the Complex Orders relating to all past dates will be deleted from ETS and therefore, will not be available for display, however they can be reviewed within the past Market Results.

Upon completion of the maintenance (around 23:00) SCO submissions can be made, with notification being provided via email.

Please be aware that SCO's will be accepted in the IDA2 auction on 25/01/2023 and available in all auctions thereafter.
