Dear Member,

We would like to inform you about some updates regarding the <u>Simulation 1</u> environment.

a) New ETS Client Version 3.5.5 in SIMU 1

There will be a new ETS client version 3.5.5 released in the Simulation 1 environment as of 24 June 2022 (first auction day). The new ETS client 3.5.5 and ETS trader client guide are now available for download at the SEMOpx website (link here).

The members using a **fixed** client or a **different** client other than version 3.5.3 must download **3.5.5** and install it.

The server address and the connection settings will remain the same in the Simulation 1 environment as they currently are.

Environment	Current Settings	
Simulation 1	**Server address:** ets.svpx.simu1.epexspot.com	**Port:** 443

The ETS 3.6.x version will be postponed until end of July. We will communicate once we have further updates.

b) ETS API Version 3.5.5 in SIMU 1

The ETS API 3.5.5 package can also be found on the SEMOpx website (link here).

The API security updates that have been communicated regarding 3.6.x client remain valid for the version 3.5.5.

The new ETS connection settings in SIMU1 will be as follows:
