

SEMOPx Info – 13 September 2022

No changes in harmonised maximum clearing price for SDAC Auction– Max Price remains at 4000€/MWh

Important information

- Maximum clearing price on the SDAC auction will remain at 4000€/MWh
- Automatic increase of the maximum clearing price has been suspended by TSOs and NEMOs
- Increase that was scheduled for 20 September 2022 has been cancelled

Dear Member,

Following EC and ACER's decision to suspend the HMMCP methodology, Nominated Electricity Market Operators (NEMOs) will not increase the maximum price level in the Single Day-Ahead Coupling (SDAC) auction.

The maximum clearing price on the **SDAC will remain at 4000€/MWh**. The increase that was scheduled to take place on 20 September 2022 has been cancelled.

The simulation 1 environment will be reverted back to the current max price of 4000€/MWh for SEM DA) ROI area, on Tuesday 13 September EoD and will be applicable as of 14 September (first trading day).

Please do not hesitate to contact us should you require any further information.

Kind regards,
SEMOPx
